

The world's largest independent renewable energy company

RES is the world's largest independent renewable energy company, working across 24 countries and active in wind, solar, energy storage, green hydrogen, transmission and distribution. As an industry innovator for over 40 years, RES has delivered more than 27GW of renewable energy projects across the globe and supports an operational asset portfolio exceeding 41GW worldwide for a large client base.

RES in Ireland

RES is a privately-owned company with a proud history across the island of Ireland.

From our Larne office we have been developing, constructing and operating energy projects since the early 1990s. This includes the development and construction of the Gorman Energy Storage System in Co. Meath and the Avonbeg and Gorey Energy Storage Systems in Co. Wexford.

RES is the power behind a clean energy future where everyone has access to affordable zero carbon energy. We bring together global experience, passion, and the innovation of 4,500 people to transform the way energy is generated, stored and supplied.

Find out more at res-group.com

RES has been working in the battery energy storage market for a decade and design safe storage projects using proven Lithium iron phosphate technology. Across the UK and Ireland, RES has developed over 830MW of battery energy storage projects, and we currently manage over 600MW of operational storage projects with 24/7/365 monitoring provided from our control centre in Glasgow.
